EDUCATION

B.Tech CSDS(Computer Science sp. in Data Science)

Medicaps University

9.00 CGPA

08/2019 – 05/2023

Indore, M.P

PROFESSIONAL SUMMARY

Results-oriented Front-End Developer with 2+ years of experience in building scalable, user-centric web applications using React and modern JavaScript frameworks. Skilled in integrating REST APIs, optimizing workflows, and delivering seamless UI experiences for enterprise clients. Currently working at Tata Consultancy Services for Morgan Stanley, where I lead UI migrations, develop analytics dashboards, and enhance automation chat agents powered by OpenAI. Proficient in React, JavaScript, and Python with strong problem-solving skills and a foundation in AI/ML concepts. Adept at collaborating with global teams, presenting to senior stakeholders, and driving projects from ideation to production. Passionate about combining cutting-edge technology with intuitive design to deliver impactful digital solutions.

WORK EXPERIENCE

System Engineer

Tata Consultancy Services

08/2023 – Present

Pune, India

- Developed and maintained full-stack applications using **React.js**, integrating **REST APIs** to deliver scalable and responsive user interfaces.
- Led **UI migration and enhancements** for automation chat agents powered by **OpenAI**, improving usability and client adoption.
- Implemented **unit testing frameworks** to improve code reliability and reduce production defects.
- Collaborated with cross-functional teams using **Jira** for agile task tracking and sprint planning.
- Conducted **client presentations and demos** for global stakeholders, gathering feedback and aligning deliverables with business needs.
- Delivered **usage analytics dashboards and feedback modules**, enabling data-driven insights for clients.

Junior Software Engineer (Internship)

Tata Consultancy Services

01/2023 – 03/2023

Pune, India

- Contributed to a **MERN stack-based project**, gaining hands-on experience with **React.js, Node.js, and Express.js**.
- Developed UI components and worked on **frontend integration**.
- Gained exposure to **enterprise-level development practices** within a client-driven environment.

Python and Machine Learning Mentor (Internship)

TechEra Knowledge and Careers Pvt Ltd

11/2021 – 01/2023

Remote

- Delivered **150+ live lectures** on **Python programming and Machine Learning fundamentals** to school and college students.
- Taught **Python libraries** (NumPy, Pandas, scikit-learn, matplotlib) with hands-on coding sessions.
- Designed **presentations, course materials, and projects** to simplify complex concepts.
- Helped foster an early interest in **AI/ML problem-solving** among learners.

SKILLS

- **Core Frontend:** React.js, React Native, JavaScript (ES6+), TypeScript
- **UI/UX & Styling:** CSS3, Tailwind CSS, Material UI, Styled Components, Bootstrap
- **Testing & Tools:** Jest, React Testing Library, Git, Bitbucket, Jira
- **API & Backend Knowledge (for full-stack exposure):** REST APIs, Node.js, Express.js, MongoDB
- **IT Constructs :** Data Structures and Algorithms,, OOPS, DBMS

PROJECTS

AI-Powered Automation Chat Agent

Enterprise automation platform enhancing client interactions with OpenAI-powered chatbot and analytics dashboards.

- **Tech Stack** – React.js, JavaScript, REST APIs, OpenAI, Jest (Unit Testing), Jira, Agile
- Migrated and enhanced an **automation chat agent** powered by **OpenAI**, improving response accuracy and user experience.
- Developed **analytics dashboards** to track usage patterns and gather client feedback for continuous optimization.
- Integrated **REST APIs** for seamless communication between frontend and backend services.
- Implemented **unit testing frameworks** to ensure code reliability and reduce production issues.
- Collaborated with global stakeholders through **presentations and client visits**, ensuring alignment with business requirements.
- Delivered a scalable and intuitive **UI migration** that improved adoption among enterprise users.

P2P Marketplace Delivery Platform (Mobile App)

Designed a mobile-first UI for a peer-to-peer delivery platform, ensuring cross-platform compatibility and intuitive navigation.

- **Tech Stack** – React Native, Expo, JavaScript, Styled Components
- Designed and implemented **user-friendly UI screens** for product listing, order placement, delivery tracking, and user profiles.
- Focused on **responsive layouts** and **cross-platform compatibility** for both Android and iOS devices.
- Integrated **navigation flows** (login, marketplace, cart, and delivery status) ensuring smooth user journeys.
- Collaborated with backend developers by creating **mock APIs and dummy data** to test and validate UI interactions.
- Applied **modern mobile UI/UX principles**, ensuring accessibility, clean visuals, and seamless interaction patterns.

Flight Fare Prediction System

Built a predictive web app that allows travelers to estimate flight ticket prices using ML models integrated with a React.js UI.

- **Tech Stack** – React.js, Python, scikit-learn, Pandas, NumPy, Flask, HTML/CSS
- Built **machine learning models** using regression techniques to predict flight fares based on parameters such as airline, source, destination, duration, and travel date.
- Developed a **React.js frontend** with user-friendly forms to capture flight details and display real-time predictions.
- Integrated ML backend with **Flask REST APIs**, enabling seamless communication between frontend and predictive models.
- Preprocessed and analyzed large datasets with **Pandas & NumPy**, improving model accuracy through feature engineering.
- Optimized model performance and provided **interactive visualization** of fare trends for better insights.

AWARDS AND RECOGNITION

🌟 Spotlight / Appreciation Awards – Tata Consultancy Services

Recognized multiple times for delivering high-quality UI migrations, client presentations, and automation chat agent enhancements for the Morgan Stanley project.

🏆 Mentor of the Month – TechEra Knowledge and Careers Pvt Ltd (Feb 2022)

Recognized for delivering engaging Python and Machine Learning sessions, mentoring students on projects, and consistently maintaining high learner satisfaction.
